

# Niccokick, I Want You Back

Heartbeat, Heartbeat  
Put me into sleep  
Bloodrush, Bloodrush  
Through my veins  
Brain, Brain  
You make me think of them again

Barstool, Barstool  
You make a fool of me  
Girls, noise,  
Diamonds and pearls  
Drink, Drink,  
I drink to keep my cool

Tv screen, Tv screen  
Take me away from this  
Pain, Pain  
Cause everything is all about the  
Same  
And that makes me think of them again

Motorway, Motorway  
You didn't want my friends to stay  
Pay, Pay  
How much do I really have to pay to get them back?
