

Niccokick, I Want You Back

Heartbeat, Heartbeat
Put me into sleep
Bloodrush, Bloodrush
Through my veins
Brain, Brain
You make me think of them again

Barstool, Barstool
You make a fool of me
Girls, noise,
Diamonds and pearls
Drink, Drink,
I drink to keep my cool

Tv screen, Tv screen
Take me away from this
Pain, Pain
Cause everything is all about the
Same
And that makes me think of them again

Motorway, Motorway
You didn't want my friends to stay
Pay, Pay
How much do I really have to pay to get them back?
