

Nicholis Louw, Say Goodbye

Wanna feel your heartbeat
Wanna feel your fire
I can sense your body rush
Feeding on desire
Well come a little closer
Come into the fire
And take me by my senses
Come and take me higher

You can keep on hanging on to him
And he will make you cry
You can keep on hanging on to him
Or you can make me yours tonight

Say goodbye say goodbye
The angel on your shoulder must've told you a lie
I got everything you want
Got everything you need
Come on home with me
Baby say goodbye

Babe I feel your heart burn
Feel it in your soul
Stay a little longer
Save me from the cold
Fighting your defences
Try to hear my call
Baby lose your senses
Baby lose it all
