

Nick Black, Something Real

I must be some kind of monster baby
I want it all and it's now or never
I'm holding out for the real thing baby
Or did you mean it when you said forever
It's just a little bit
I'm getting sick of it
You never let me feel
It's just a little bit
I'm getting sick of it
I wanted something real
Just get me something real
Just get me something real
I never knew I could want to baby
I never thought that I could give you reason
I'm waiting here for the real thing baby
You know I need it and it's now or never
It's just a little bit
I'm getting sick of it
You never let me feel
It's just a little bit
I'm getting sick of it
I wanted something real
Just get me something real
Don't know if I can take this
I don't know if I hate this
Don't know if I can say this
You know you made me hate this
It's just a little bit
I'm getting sick of it
I wanted something real
It's just a little bit
I'm getting sick of it
You never let me feel
It's just a little bit
I'm getting sick of it
I wanted something real
Just get me something real
It's just a little bit
Just get me something real
I'm getting sick of it
Just get me something real
