

# Nick Drake, Cocaine Blues

Yonder comes my baby dressed in blue,  
hey baby, whatcha gonna do,  
cocaine, all around my brain  
Yonder comes my baby dressed in white,  
hey baby, gonna stay all night  
cocaine, all around my brain  
hey baby, come here quick,  
this old cocaine's gonna make me sick  
cocaine, all around my brain  
went to be last night and the lights was on  
woke up this morning, and my nose was gone,  
cocaine, all around my brain  
this cocaine's for horses, it ain't for men  
the doc says it'll kill me, but he don't say when  
cocaine, all around my brain  
come here baby, come here quick,  
this old cocaine's gonna make me sick,  
cocaine's, all around my brain.
