Nick Drake, Road

You can say the sun is shining if you really want to I can see the moon and it seems so clear You can take the road that takes you to the stars now I can take a road that'll see me through I can take a road that'll see me through. You can take a road that takes you to the stars now I can take a road that'll see me through I can take a road that'll see me through I can take a road that'll see me through.
