

# Nick Heyward, These Words

I love Elvis  
She loves Woodstock  
I love Homebase  
She loves sunblock  
How many times can you make a stand  
To fall from the highest of all you've  
said and done  
I love London  
You love starsigns  
Someone made me say these words  
again  
And I swore I'd never use these words  
again  
Again and again

I love Spacegear  
She loves Spender  
I love earthquakes  
She loves Trainer  
Everytime you think you have it made  
Heaven sent  
Heaven sends you a nice big present  
I got doomsday  
She gets Highway  
Someone made me say these words  
again  
And I swore I'd never use these words  
again  
Again and again  
I love you, I love you  
I want you, I want you

Something made me say these words  
again  
It's you that made me use these words  
again  
Again and again  
I don't love you, you don't love me  
I love pop groups, you love dance  
grooves  
Someone made me say these words  
again  
And I swore I'd never use these words  
again  
Oh these words  
All these stupid words  
All these words  
All these stupid, stupid words
