

# Nick Jonas, Bacon (ft. Ty Dolla \$ign)

Pretty mind, silk thoughts  
Start a fire when you turn the lights off

I know you been hoping I give in  
But I ain't feeling that feeling, no  
Babe, you're right, maybe I', tripping  
The one thing I love more than being with you

And that's late nights, doing what I wanna do  
I got sleep eyes  
I woke up like this  
Feel like  
Shit  
Throw some becon on it  
One thong I love more than being with you  
Sizzling white hot  
Give me that sugar with the sweet talk  
You're perfect, but I'm not  
So how do we end up in the worst spot?

I know you been hoping I give in  
But I ain't feeling that feeling, no  
Babe, you're right, maybe I', tripping  
The one thing I love more than being with you
