

Nickel Creek, Jealous Of The Moon

Tryin' on a brand new dress
But you haven't worn the old one yet
You've come too far
To turn around now

You've given up the good fight
You're as strong as anyone
You're back where you started from
I see you're back where you started from

Starin' down the stars
Jealous of the moon
You wish you could fly
Just being where you are
There's nothin' you can do
If you're too scared to try

Drag your pretty head around
Swearin' you're gonna drown
With a beautiful sigh
And a river of lies

Starin' down the stars
Jealous of the moon
You wish you could fly
Just stayin' where you are
There's nothin' you can do
If you're too scared to try

Why don't you call me, I could save you
Together we'll find a God we can pray to
That'll take you by the hand

I hate to see a friend of mine
Laughing out loud
When she's crying inside
But you've got your pride

Starin' down the stars
Jealous of the moon
You wish you could fly
But you're stayin' where you are
There's nothin' you can do
If you're too scared to try

You're starin' down the stars
Stay where you are
You're jealous of the moon
But there's nothing you can do
If you're too scared to try
