

# Nickelback, Deep

And you see much better than I see  
And you know all that I'm thinking  
To define or redefine too slow  
And it seems all that I'm sinking  
Running through the deep  
Gonna find the backwoods  
I found out  
All day long who will be the big men giving some

And you bleed much better than I bleed  
And you've shown all that is so good  
And your word, much better than my word  
And you stand right where a hole should

Running through the deep  
Gonna find the backwoods  
I found out  
All day long who will be the big men giving some

To feel devine  
To hold onto ones self  
To give and to give and  
To never receive by myself

Running through the deep (I want it)  
Gonna find the backwoods (I need it)  
I found out (much more than he did)  
All day long who will be the big men giving some  
(give it back somehow)  
Giving some (I'm ready to forgive now)

Running through the deep  
Gonna find the backwoods  
I found out  
All day long who will be the big men giving some  
Running through the deep gonna find the back backwoods  
I found out gonna get it gonna get it  
All day long who will be the big men  
are you really really gonna get it
