

# Nickelback, Learn The Hard Way

Hey there little darling, where'd the old man gone?  
Why don't we get out of town and do it all night long?  
We can lie out in the field til the morning light  
Then me and your old man are gonna have to fight

Start the loving in the truck and wind up in the ditch  
Then the old man will come a runnin' with a hickory switch

Oh, no, gotta learn this some day  
Why, I, gotta learn the hard way

Buddy showed me just how fast a car can go  
I'll race you for your pink slip right before this show  
Put your girlfriend in the bet to make things good  
Coz she's been staring at me like no girlfriend should

Bastards sitting right there on the starting line  
Stuck the sugar in your gas tank by myself last night

Oh, no, gotta learn this some day  
Why, I, gotta learn the hard way
