

Nickelback, Money Bought

Cherry stem with her mouth she could tie in a knot
Favourite trick she does, One in ten that she's got
Making friends, setting trends, hardly having to try
All the looks, by the book, best that money can buy

Look what your money bought
It's all that she's got
It keeps her company
Straight from Mom and Daddy

Last chance to dance, out in back of the bar
Shakin' hands, nice to meet you, I don't know who you are
She has a toke and makes a joke about the alley man
Never pleased from the treasure in a garbage can

Look what your money bought
It's all that she's got
It keeps her company
Straight from Mom and Daddy

Cherry stem with her mouth she could tie in a knot
Favourite trick she does, One in ten that she's got
Making friends, setting trends, hardly having to try
All the looks, by the book, best that money can buy
