

# Nicky Youre, Shut Me Up

What do we call it  
When am I calling you  
I'm scared that falling  
Just feels like falling through  
But this connection  
Is worth the worrying  
So I'm just checking  
Should I go all in

Cause I  
I'm overthinking I  
So help me out

Just kiss my lips and shut me up  
Just pull me in it's obvious  
I need some therapy  
Cause knowing me  
I think too much

Jumpstart my heart and make it stay  
I'm running out of ways to say  
I'm sick of overthinking  
Kiss my lips and shut me up

Maybe you love me  
But maybe not enough  
Maybe you need me  
Or maybe I'm too much  
I'm overcomplicated, I can't explain it, I tell myself that  
You might not feel the same and that's killing me so spell it out

Cause I  
I'm overthinking I  
So help me out

Just kiss my lips and shut me up  
Just pull me in it's obvious  
I need some therapy  
Cause knowing me I think too much

Jumpstart my heart and make it stay

I'm running out of ways to say  
I'm sick of overthinking  
Kiss my lips and shut me up  
Kiss my lips and shut me up  
Kiss my lips and shut me up
