

Nico, Fearfully In Danger

On a dusty road you sit
Fearfully in danger
The intentions of my attitude
Have mastered the adventure

You'll be placed in harmony
A degree of anger
You have landed painfully,
Fearfully in danger

In a state of trance
You may come and dance
You may sing the void for me

Constantly cold with fear
I know that I do not need you here

Does it fit your fears
Does it suit your face

No, you cannot grasp
The phase

Fearfully in danger
Fearfully in danger
