

Nico Santos, Rooftop

I got your fingerprints on my skin
Every since that day you let me in
I feel your vibes, they are circling
You cut so deep, cut so deep
Who needs love leaning to one side
We're free fallin' in the jungle nights
you have it all, got me on standby
You cut so deep, cut so deep

cause I thought that the trust had gone
didn't see this coming along
you made me a belier
you made me a belier

And now I'm
I'm shouting from the rooftop
tell me, will you come and save me
I'm shouting from the rooftop
come pick me up, /2x
Are you just a lover or my twin soul?
fire the shots and I need to know
I'm shouting from the rooftop
come pick me up, /2x

so my heart was so tired and numb
it got sick, too much went wrong
you had that match and you let it strike
You cut so deep, cut so deep
get your darts hitting my bull's-eye
You cut so deep, cut so deep
watching hope doing overtime
keep me hanging on through the night

hay, I thought that the trust had gone
didn't see this coming along
you made me a belier
you made me a belier

And now I'm
I'm shouting from the rooftop
tell me, will you come and save me
I'm shouting from the rooftop
come pick me up, /2x
Are you just a lover or my twin soul?
fire the shots and I need to know
I'm shouting from the rooftop
come pick me up, /2x

pick me up when I am falling
pick me up and show me home
all my senses just need to know
why your heart feels like gold
so pick me up when I am falling
pick me up and show me home
all my senses just need to know
why your heart feels like gold

And now I'm
I'm shouting from the rooftop
tell me, will you come and save me
I'm shouting from the rooftop
come pick me up, /2x
Are you just a lover or my twin soul?
fire the shots and I need to know

I'm shouting from the rooftop
come pick me up, /2x

pick me up when I am falling
pick me up and show me home
all my senses just need to know
why your heart feels like gold
feels like gold
