Nicole Scherzinger, Try With Me

And you said, leave your keys on the counter And you said, call me back at eight I don't care, that you left me there for hours But you said, we had what it takes

Why's it feel like you're there When you're already gone Why's it feel like you care When I know that you don't Everybody needs a chance at love That's all we need If you wanna have a chance at us Then try with me

Too proud for love, he tells me Too hard to give it one more shot Don't drawl me in, he wants me But now it's too late to give up

So don't say, you leave your keys on the counter And don't say, you call me back at eight

Why's it feel like you're there When you're already gone

Why's it feel like you care When I know that you don't Everybody needs a chance at love That's all we need If you wanna have a chance at us Then try with me

Don't say a word If you know that it hurts You know that it hurts You know that it hurts

Don't say a word If you know that it hurts You know that it hurts You know that it hurts

Why's it feel like he's there When I know that he's gone Why's it feel like he cares When I know that he don't Everybody needs a chance at love That's all we need If you wanna have a chance at us Then try with me
