

# Niels, In The Hush Before The Heartbreak

In the hush before the heartbreak  
Everything is beautiful  
In the hush before the heartbreak  
Everything's cool  
In the hush before the heartbreak  
I'll be your fool  
In the hush before the heartbreak  
I'll do anything for you

I don't care about tomorrow  
I don't care about yesterday  
I don't care about your lover  
I won't make her go away  
I don't care about appearances  
Or what my friends will say  
(Let them talk all day)  
In the hush before the heartbreak  
I just want you to stay

You can know someone forever  
And know what no one else knows  
You get closer and closer  
Till you are closed

You will stay this way forever  
In your perfect dusky room  
With the light shining from heaven  
From a perfect waning moon  
Like the message that you sent me  
Saying "I will be home soon"  
(I'll be home soon)  
In the hush before the heartbreak
