

# Night In Gales, The Dustcrown

strike him down !  
plunder the palace on craltide's eve !  
brigants be crowned as scarletwinged starthieves

the carrionking's clarions are chanting from afar  
preluding pestilential war  
a parade of starstruck tyrants and havoc's ambassadors

he's a starslayer, none so vile  
a charming chaser of the furyspies

his teartempest's trophy...  
...the steelwolves' skycries

bring me the head of the firefed !  
the trophy of blackblood, the raider's razorsoul  
the fearfeathered one...  
be it a vassal, be it the king  
this deathjewel is my poisoned sting..!!

now i bear the dustcrown and  
the carrionking lies bleeding..!
