

Nightcore, Find My Way To You

When there's nothing left to do. i will find my way to you,
cuz i need you so. i want your love, ...

i'm standing in the cold, i've been waiting here for so long, i'm waiting for my love
to come and take me home. he's on his way from work and i'm longing for his love.
i hope that he will say that i'm the only one.

when there's nothing left to do. i will find my way to you,
cuz i need you so. i want your love, ...
... we will be there you and i
there's no other way i wanna say your my sunshine in the rain

i kno that he will hold me in his arms through all the night
and he whispers to me, i'm breathing all your life
i'll make your dreams come true, almost anything you want.
i'll be the one to hold you when everything is hard

when there's nothing left to do. i will find my way to you,
cuz i need you so. i want your love, ...
... we will be there you and i
there's no other way i wanna say your my sunshine in the rain
