

Nightcore, Here In M Y Heart

Cuz your here in my heart, i can't deny it baby
wanna take you higher baby, i still need your love.

love, like a storm i'm coming closer, like we're supposed to
... it sounded so wrong, but it's sure to feel right
we'll be together forevermore

cuz your here in my heart, i can't deny it baby
wanna take you higher baby, i still need your love
cuz your here in my heart, i can't deny it baby
i still want you baby, just can't get enough, can't get enough

... the time has come now to wish upon the stars above
its gunna be you, your the one i'll be after, forever and ever
i need your love

cuz your here in my heart, i can't deny it baby
wanna take you higher baby, i still need your love
cuz your here in my heart, i can't deny it baby
i still want you baby, just can't get enough, can't get enough
