

# Nightfall, So(u)l Invictus

So(u)l Invictus

Freeze the moment under lunar light my dear

Displace such view from the book of fear

Nail a lie that caused so much, nameless spirit now drives in lust

I feel almighty, I am almighty, I AM GOD

I am on fire, I am desire, I am the Sol Invictus

Share these moments of absolute glory

Never again for others feel sorry

Wait, wait my line have to finish first

I can feel I tell you your spirit's thirst

Rail at you nothing else can do

Rain gifts upon those who come true
