

# Nightwish, Deep Silent Complete

In your creation heaven did decree  
That in your arms sweet death should dwell

Deep Silent Complete  
Black velvet sea  
The sirens are calling for me

Saved my soul thinking "This song's a lie"  
Sand on the shore is so dry

Deep Silent Complete  
Black velvet sea  
Brave day sinking in endless night

The age will say "This poet lies"  
Heaven never touched earthly face  
The age will say "This night was ours"  
Blessed with the Deep  
The Silent the Complete
