

Nik & Jay, Ocean of you

I am creative, word is spawned.
Word to Sean Carter.
Word to Kelly.
Word to Cobain.
Word to Sofie.
I can always try harder.
It's on.
I am a father,
Yes, I am a father.
I am a foreigner.
I am a warrior.
Will catch the light at the end of the corridor,
Believe me.
Very beautiful lines break into my mind.
Most wonderful words, I ever heard.
Like syllables and sentences.
I wonder if they make sense and shit?
But who gives a fuck if she's hot like Nevada.
I mean hotter than lava.
Destiny is begging me to try her,
While history is begging me to write her.

I'm ready now.
Bring it on, an open door.
Scenario.
Ocean of you.
I feel your groove,
Bodies move.
I dive into an ocean of you.

Moonshine like a disco ball,
Reflections in my mind, I can see it all.
She's beautiful.
Eyes deep blue,
It might be real, but it's too good to be true.
Yeah I know.
What they say:
"Even the brightest day will have its sunset in some way."
Please,
I keep walking on thin ice,
"You only get one chance",
So why would I think twice?
The night is bright,
She's hot as fuck.
Me and her looking at the sky.
Star struck.
Get behind this and there's no turning point.
It's now or never.
Flip the coin.
Yeah, that's the game.
Baby, the tracks insane.
Let this fire burn.
It's like we're catching flames.
I'm running out of oxygen.
Still I'm goin' in

I'm ready now.
Bring it on, an open door.
Scenario.
Ocean of you.
I feel your groove,
Bodies move.
I dive into an ocean of you.

We turn this music.
We turn this music up high.
You got my words.
You can have this song tonight.
So hold your breath.
Put the rest of the word aside.
We just gon? do it.
Dive into it.
The ocean of you.

I'm ready now.
Bring it on, an open door.
Scenario.
Ocean of you.
I feel your groove,
Bodies move.
I dive into an ocean of you.

Your deep blue eyes.
The ocean of you.
Your deep blue eyes.
