

Nikki Hassman, Every Night I Fall

Woke up, got out of bed
Drag the covers back again
I heard the phone ring in the hall
And thought of you through it all... 'cause

Every night I fall
Every night I fall into you
You've got me in a ???
And I can't help but fall

You can sit and watch the sun
Or count the stars one by one
Stand still for hours on end
And I'd have to catch my breath... and

Every night I fall
Every night I fall into you
You've got me in a ???

And I can't help but fall

BRIDGE
Oh, you move me with every move you make
And I could never hide what's on my face
Even if you will be gone tomorrow
Oh, you should know, that...

Every night I fall
Every night I fall into you
You've got me in a ???
And I can't help but fall

Every night I fall
Every night I fall into you
You've got me in a ???
And I can't help but fall
