

# Nikki Leonti, I Need You

Often times I've come to You  
With multiple requests  
Needing, wanting, searching for the answers to this mess  
Often times I've come to You  
With pain to take away  
Begging to the God on high  
To get me through the day

But Lord this time I come  
With a longing for Your love

CHORUS:  
I need You  
To be my Father  
I need You  
To be the strength that I need  
To hold me in Your keeping  
And wipe away the tears  
It's true  
I need You

There's so much more that You can give  
Than what I've required  
So help me to see beyond myself  
In all my desires  
I'm done with all the temporary things to meet my needs  
I've learned that nothing satisfies like truly being free

On my knees I come  
Longing for Your love

CHORUS

BRIDGE:  
There's nothing really too ordinary  
About the love that you've given me  
Nothing like knowing the truth  
That sets me free

CHORUS
