

# Nikki Leonti, Love Is All I Need

Some say love don't come easy  
At a time I found that to be true  
I was searching for completion  
In my object of affection  
Doing things my own way  
When I should have looked to you

Then you came and found me in my searching  
Told me I had nothing left to prove  
You took the guilt and shame from me  
Now I know that I am free  
'Cause there is nothing greater  
Than the love that comes from you

## CHORUS:

Your love reaches higher than the mountains that touch the sky  
Your love crashes harder than the waves to the sea  
No matter how far I've been  
Your love went further for me  
Thank you Lord  
Now your love is all I need

I can tell you that the road ain't always easy  
But there's a God who will always see you through  
He is everything you're looking for  
You don't have to search no more  
'Cause there is nothing greater than the love He has for you

Bridge breakdown

CHORUS
