

Nikki Leonti, Love One Another

We spoke with the tongues of angels
But we didn't have love
No, we didn't have love
We had faith that could move any mountain
But it wasn't enough
Cause we didn't have love
We had wings but we did not fly
We had vision but we didn't have sight
Can we forgive so the whole world can live

Love, Love one another
Leaving the past
Believing in the power of love
Love one another
Cause we're all in this together
Love on another

No one can live forever
If it wasn't for love (God's love)
And no one would stay together
If it wasn't for love (oh oh)
Disillusioned by the stain-glass sea
But there's truth for those that hope and believe
Now I can see that the greatest of these is love
