

# Nikki Leonti, What You Did For Me

Deep in my heart of hearts  
There's a feeling so far beyond words  
Knowing you planned to die for me  
Long before time began  
Now a life that forever shines  
Leaves the darkness and pain behind  
Through your strength I know now  
That I'm weak, I am frail, and I need you

## CHORUS

What you did for me  
Let a soul that was captured go free  
I did not deserve  
What you did for me  
You gave me forever with you  
The promise you made me is true  
Now I know I'm free  
Yes I know I'm free  
Because I believe  
What you did for me

I have walked through the desert alone  
Without rest or a place to call home  
I have thirsted for peace in my life  
I could never attain  
And I have tried to build stairways  
That reach to the sky  
but no matter how hard I tried  
To give up my pride  
I needed to see...

## CHORUS

## BRIDGE

Now I am asking you, Lord  
Use me to glorify you  
Although I fall short  
I am willing to be a witness  
That Jesus is living in me  
I pray that they'll see  
What you did for me

## CHORUS
