

Nikki Webster, All Come Back To You

My mama said, when I was a child
There's one rule you must always mind
A cold heart can't be satisfied
but if you give you will get richer all the time
so baby listen now
whatever goes around will always come around

don't matter what you do
long as your heart is true
just give your love and it will all come back to you

i don't know, so don't ask me why
that big sun doesn't always shine
it's no big thing, it's just how it is
you can't forget it if you just remember this
whatever goes around will always come around

(it will all come back to you)
and every little smile (it will all come back to you)
the joy in someone's eye (it will all come back to you)
so give it freely
when you do
it will all come back to you
Chorus
