

Nils Landgren, Be There For You

It's the way that you know me, it's the way that you don't
It's the way that you miss me, when you swear that you won't
It's the feeling you give me, when we talk on the phone
God, I hope you outlive me, so I'm never alone

And whatever you do, I will be there for you
Through the thunder, the wind and the rain
And whatever you do, I will promise to you
I will be there... I'll be there for you

I may lack social graces, but I won't swallow my pride
See, there are millions of places I could be, but I'm here by your side

And whatever you do, I will be there for you
Through the thunder, the wind and the rain
And whatever you do, I will promise to you
I will be there... I'll be there for you

Though there's nothing to guide us, we will weather the storm,
'til the heavens divide us, I will keep you from harm

And whatever you do, I will be there for you
Through the thunder, the wind and the rain
And whatever you do, I will promise to you
I will be there... I'll be there
And whatever you do, I will be there for you
Through the thunder, the wind and the rain
And whatever you do, I will promise to you
I will be there... I'll be there for you

I'll be there for you
