

Nina Nastasia, I Come After You

Don't think you are exceptional
Don't dream you're better than anyone else
You're only feeling good

A sober night would do you good
Recall the day

Don't think that I can't glean the truth
I know you better than anyone else
You're here because she's news
And she won't even mention you

We'll be back to do this again and again
This is how I see love and what fools understand
Don't shill yourself
Let's not pretend

Don't use the line exceptional
Don't dream you've got it over anyone else
You're only feeling good

A sober night would do you good
