

Nina Nesbitt, Älskar

meet me on the stairway
kiss me like i'll be gone
like a summer song
i'm thinking about you on the subway into stockholm
and there's so much going on in my head
my father just left
my mother's depressed
all the trees are up in flames from san francisco to LA
if I had it my way
i'd be there in your car
as I watch you drive

you're the kinda flame
I don't wanna burn out
I would give you my heart
let you tear it apart
älskar
is it all that you want, is it?
cause you know for your love I would die for it
I would give you my heart
let you tear it apart
älskar

I wanna scream your name
Into an empty canyon
so I can hear it back a thousand times
we've got nothing in common
but we fit better than pills in a packet
I wanna be your late night habit
if you let me

you're the kinda flame
I don't wanna burn out
I would give you my heart
let you tear it apart
älskar
is it all that you want, is it?
cause you know for your love I would die for it
I would give you my heart
let you tear it apart
älskar

is it all that you want, is it?
cause you know for your love I would die for it
älskar
is it all that you want, is it?
cause you know for your love I would die for it
