

Nina Simone, Take Care Of Business

(1965) Andy Stroud

Don't talk just hold me closer
Let me sit on top of your knee
Go ahead and take care of business
For me for me for me
Oh Lord, don't keep me waiting
Be as firm as can be
Go ahead and take care of business
For me for me for me
In all my life no-one has touched me so close
Nor made me feel so sweet
I said to you you are God's gift to all womanhood
Take it from me take it from me
You know you know that I love you truly
And I want the whole round world to see
How you can take care of business
For me for me for me
Go take care of business for me
Yeah yeah go take care of business for me
