

Nine Black Alps, Everybody Is

hey, put on a face
you know that i could be a hypocrite again
anyway, it's just a phase
because tommorow is another day, tommorow we can start again

everybody is a liar
everybody has a price
and i know the only reason for it all's to stay alive

smile, make me laugh
it's the only way that i'll be comin' back
oh friend, it's not the end
because tommorow is another day, tommorow we can start again

everybody is a liar
everybody has a price
and i know the only reason for it all's to stay alive
(x2)

sometimes all i want's a liar
sometimes i don't have a price
and i know the only reason for it all's to stay alive
