

Nine Black Alps, Just Friends

She doesn't know how to relax
Doesn't know how to hold back
And all I can do is laugh

Maybe I'm too much in love
Maybe I don't give a fuck
It's never enough

And it's too late
I'm never around when your heart breaks
Never allowed to make mistakes
Now we're no longer just friends

I wanna believe in your heart
And I wanted to see you off guard
But we're always apart

And now
There's nowhere around left to run
And there's nothing to do but play dumb
So please sing along

And it's too late
I'm never around when your heart breaks
Never allowed to make mistakes
Now we're no longer just friends

Yeah it's too late
I'm never around when your heart breaks
Never allowed to make mistakes
Now we're no longer just friends

Yeah
Yeah
Yeah
