Nine Inch Nails, Beside You In Time

I am all alone this time around Sometimes on the side I hear a sound Places parallel I know it's you Feel the little pieces bleeding through

[Chorus:]

And on (And on)

This goes on (And on)

And on (And on)

This goes on (And on)

And on (And on)

And on (And on)

And on (And on) And on (And on)

And on (And on)

And on (And on)

And on

Now that I've decided not to stay I can feel me start to fade away Everything is back where it belongs I will be beside you before long

[Chorus]

[x2] Oooh we will never die Oooh Beside you in time
