

Nine Inch Nails, Survivalism (Remix)

I should have listened to her, so hard to keep control
We kept on eating but our bloated belly's still not full
She gave us all she had but we went and took some more
Can't seem to shut her legs, our mother nature is a whore

I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
All a part of this great nation
I got my fist, I got my plan, I got survivalism

Hypnotic sound of sirens echoing through the street
The cocking of the rifles, the marching of the feet
You see your world on fire, don't try to act surprised
We did just what you told us, lost our faith along the way and found ourselves believing your lies

I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
All a part of this great nation
I got my fist, I got my plan, I got survivalism

All bruised and broken, bleeding
She asked to take my hand
I turned, just keep on walking
But you'd do the same thing in the circumstance I'm sure you'll understand

I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
All a part of this great nation
I got my fist, I got my plan, I got survivalism

You got your pacifism, I got survivalism (repeat)

=Tardusted=

</lyrics>

I got my propaganda, I got revisionism
I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
got my violence in hi

I should have listened to her, so hard to keep control
We kept on eating but our bloated belly's still not full
She gave us all she had but we went and took some more
Can't seem to shut her legs, our mother nature is a whore

I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
All a part of this great nation
I got my fist, I got my plan, I got survivalism

I, I, I, I got survivalism

Hypnotic sound of sirens echoing through the street
The cocking of the rifles, the marching of the feet
You see your world on fire, don't try to act surprised
We did just what you told us, lost our faith along the way and found ourselves believing your lies

I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
All a part of this great nation
I got my fist, I got my plan, I got survivalism

I, I, I, I got survivalism

All a part of this great nation

All a part of this great nation

All a part of this great nation
All a part of this great nation

I got my propaganda, I got revisionism
I got my violence in hi-def ultra-realism
All a part of this great nation
I got my fist, I got my plan, I got survivalism

You got your pacifism, I got survivalism (repeat)
