

NITA STRAUSS, Victorious (ft. Dorothy)

It's not hopeless
Don't you know I feel your pain
It's not hopeless, I feel the same

We're relentless
Down and out don't count us out
Fight the fear, we're here to stay

We're marching
Hear us coming

One step closer can you hear us now
Victorious
One step closer can you hear us now
Victorious
Hey, hey, here we are
Hey, hey, here we are
One step closer can you hear us now
Victorious

We don't need a savior
Scream and shout, the time is now
This generation will save ourselves
A million invaders
Can't break us down, we'll take the crown
Not even these walls can keep us out

We're marching
Hear us coming

One step closer can you hear us now
Victorious
One step closer can you hear us now
Victorious
Hey, hey, here we are
Hey, hey, here we are
One step closer can you hear us now
Victorious

We've all fallen down
Been victims of doubt
It don't matter how
We'll make our own way out

One step closer can you hear us now
Victorious
One step closer can you hear us now
Victorious
Hey, hey, here we are
Hey, hey, here we are
One step closer can you hear us now
We Are Victorious
