

Nitty Gritty Dirt Band, I Love Only You

I like to drink my beer
Spend time with the boys
After work, to down a few
Is something I enjoy
And sometimes I stay out too late,
Yes I know it's true
But I love only you.
And I like to take life easy
Work out in the yard
Sleep late on the weekends
After an all-night game of cards
And drivin' my old Chevy
On a Sunday afternoon
But I love only you
I like my old guitar
And I'd like to be a star and shine on you
I'd like to write a song
The whole world could sing along about
I love only you
I like my old memories
The girls I used to know
Some of them still have a place
My mind likes to go
Of all the ones I've cared for
Lord knows that's been a few
But I love only you
ah, Honey, I love only you.
