

Nivea, Never Had A Girl Like Me

I am the type of girl
You've only dreamt about
Sweetly sincere my feelings
Beauty inside and out
My style is having fun
Never come second to none
Heads turn when I pass by
But too bad your not my guy

Never had a girl like me
Never will never won't
That's just how it's gotta be
Never had a girl like me
Don't you wish that you could
Since it's never gonna be
Never had a girl like me
Never will never won't
That's just how it's gotta be
I know that you're not happy
Cuz you never had a girl like me

I don't know if you could handle me
Willing to share my love
But not quick to give it up
I'll take you for a ride
Come and find my paradise
Don't need no other high
Cuz I'll help you free to fly

CHORUS

I know you would if you could
I know you want to be down
Just think about it twice
I know you never had a girl like me in town
I could make you mine
Why don't you see that I am not like the average type of girl you like

Never had a girl like me
Never will never won't
That's just how it's gotta be
Never had a girl like me
Don't you wish if you could
Since it's never gonna be
Never had a girl like me
Never will never won't
That's just how it's gotta be
I know that your not happy
Cause you never had a girl like me
You never had a girl like me
Never will never won't

~~~~~

Never had a girl like me  
Don't you wish that you could  
Since it's never gonna be  
Never had a girl like me  
Never will never won't  
That's just how it's gotta be  
I know that your not happy  
Cuz you never had a girl like me
