## Nixons, First Trip

How long since I've seen you I don't know It seems like 50 million years ago

I still think of you every now and then And last words you said let's be friends Yet I remember Do you recall I was the one you let inside Your solitary room I was the one who took you on Your first trip to the moon

Just when you've been thinkin
You've got it all together
Here I am again looking through you
Wouldn't you think that this time
That we could get it right
You say that stuff so strong
And then you turn down the light
Cause you remember yea you recall

I was the one you let inside Your solitary room I was the one who took you on Your first trip to the moon

And sometimes it's hard to see Tomorrow through yesterday It's alright to talk about it But I'm here today

How long since I've seen you I don't know Do you remember Do you recall Well I recall

I was the one you let inside Your solitary room I was the one who took you on Your first trip to the moon There was a time I was inside Your lonely, lonely room I am the one who took you on Your first trip
