

NiziU(□□), Step and a step

It's ok
Just be as you are
Just relax
You're not falling behind

When you've lost your way
Why not stop for a moment?
Take your time

Turn around and look back
See your footprints?
Always, i am proud of you

Oh, you're already special
You should be proud of yourself
Let's go

Step and a step
In my stride
Step and a step
At a pace just right for me
