

NLE Choppa, Drop Shit

Ayy, drop shit

Brodie posted on the block with a fully loaded Glock
When he see a opp, bet that he gon' pop it
Who would ever thought that I'd be on top?
Signing bitches titties in the crowd while they doing mosh pits
Get a bitch from after the show, give her dick 'til she throw up
I got her and friends saying that I'm toxic (Toxic)
Nigga think that I'm a ho, it's gon' go up
I been a lot of shit in my life but a bitch, I am not it
I done seen a lot of smoke
But barking up this tree, you gon' get smoked
Do what I please, I can't please no ho
'Cause all these bitches be on go

I'm taking off, you better light the way
Ain't got the time for typing, bae
I been tryna run up this paper
A hundred different type ways
Lowkey think he playing with my cheese, but I'ma find out
Thinking two steps ahead of him, I'ma blow his mind out
I ain't going for none of that running shit like a running back
Once I leave, I ain't coming back
I act different when I'm detached
Fuck her love, I don't double back
Unless a opp ain't get whacked
What you saying? I ain't trusting
I can tell when it's facts
I can tell if it's real
Re-up on your loyalty skills
'Cause I can tell you right now how I feel
If you don't reconcile with me, you might get killed

Ayy, drop shit

'Cause all these bitches be on go

On go for a rich clit

Lit bitch, thick bitch but can't take dick
Yeah, famous bitches on my hit list
Kinda crazy 'cause they was just on my wish list
Bet I get all of 'em like it's Christmas
Give 'em good dick and then they get dick-missed
Am I wrong? I know I ain't tripping
When I used to shoot my shot, I couldn't hit shit
Now bitches want mister to missus
The whole family with white picket fences
When I say bitches, don't take no offenses
Not talkin' about the queens but the ones penny-pinchin'
My point of view might be different, but I stand on what I believe
You can take or leave it, and trust me, it's fine with me
One thing about me, I'ma be straight regardless, I'm heartless
Lot of shit I seen done scarred me

Ayy, drop shit
