

# NLT, Better Than Me

Girl I've been checkin' you out  
And I can tell you ain't been satisfied in a while  
I'm diggin' your style baby so let me turn a frown into a smile(I ain't tryna tease ya)  
Hope I ain't comin' on too strong  
But you look like you could use my company  
I know you gotta man but tell baby watch your man gotta do with me (yeah)  
Listen up girl  
Said I can be a better man than he  
Girl why you trippin' you need to be over here with me  
I know you gotta man but he can never be better better be be be better better better than me  
(Shorty he can't be)  
Shorty forget your man and roll with me with me  
I'll have you feeling like everyday is a fantasy  
I know you love him but he can never be better beter be be be better than me  
Know all 'bout your feelings girl (aye?)  
So what's the chance of you leavin' him for me?  
(Cause I'm a go getter)  
And I don't know I'm not it all baby  
But it don't seem he own his j.o.b (Jay Oh Bee)  
(And I can love you better)  
The choice is easy  
Cause I know what a real man should be  
(Wait till you see)  
(I touch you like you need to be touched?)

I promise baby you won't regret a thing  
(Why don't you trust me babe)  
\*Said I can be a better man than he,  
girl why you trippin' you need to be over here with me  
I know you got a man but he can never be better be be better than me  
Shorty forget your man and roll with me  
Ill have you feeling like everyday is a fantasy  
I know you love him but he can never be better better be be be better better better than me  
He can't be better than me baby I know you see  
He ain't got nothin' on me  
Shorty he can't be  
Better better be be be better better better than me  
Said I can be a better man than he,  
girl why you trippin' you need to be over here with me  
I know you got a man but he can never be better better be be be better better better than me  
Shorty forget your man and roll with me  
Ill have you feeling like everyday is a fantasy  
I know you love him but he can never be better better be be be better better better than me
