

No 7, Here I am

I.

Here I am,
I'm walking on the streets all alone
And leave all the bad things behind
There's something in my mind you should know
Why don't you get the hell out of my life!
I'm alright, don't worry for me, don't cry,
I'm gonna leave out that door and come back no more.
I'm alright, I'm gonna start a new life,
This thing goes on and on
Just leave me alone

Ref:

Everything was spinning around you,
But it's almost over now.
Every Saturday was sad because of you,
But it's almost over now.

II.

Here I am,
I am out of this game forever
Boy, I don't blame you for everything
I made mistakes when we were together
'cuz you didn't give me much space to breath.

Ref:

I'm alright, don't worry for me, don't cry,
I'm gonna leave out that door and come back no more.
I'm alright, I'm gonna start a new life,
This thing goes on and on
Just leave me alone
Our love is lost in time,
We need to stop this fight
And move it on, and move it on.
Our feelings turn to dust,
They weren't been to last,
We're moving on
Ohh...

Ref:

Everything was spinning around you,
But it's almost over now.
Every Saturday was sad because of you,
But it's almost over now.
Everything was spinning around you.
Every Saturday was sad because of you,
But it's almost over now.
I'm starting to forget you.

Ref:

Everything was spinning around you,
But it's almost over now.
Every Saturday was sad because of you,
But it's almost over now
I'm startng to forget you.
