

No Assembly Required, Incinerate

yeah
you like this
how we make
you all break

you will all
feed off this
we are great and
we won't fade out

you'll try so hard
to break us down
we'll never fall
another round
to take them all
out and down

you there
you want this
you want it all
for yourself

the freedom
believing
it's eating you
and you can't stop now

you will feel
the burning
through your skin
just hold still

don't worry
you're learning how
to die, i'm proud
you can't stop our sound
