

# No Doctors, Liberty

Legs spread wide  
And deep down inside  
You've slept for too long!

No room in the seats  
Then no room in the streets  
Sit still or make way cause I'm comin' through

Eyes tied tight  
Felt like a night  
What's that about the truth?

Time to be bold  
Tell me what you're told  
Ain't every day get a chance to play with a movin' statue

Of all the things I've ever seen  
I'll tell you what was the worst  
Saw the Statue of Liberty kill a man  
And I'm sure it wasn't the first

Back to sleep you go  
Best do what you're told  
You've been up too long!

Put in your part  
At least it's a start  
Wanna fight cause it's right but she's bigger than you

Next time is the chance  
Get under her pants  
Baby wanna get it on?

Chip the mud off the metal  
Break control from the pedal  
Ain't every day get a chance to play with a movin' statue
