

# No Doctors, Sharkskin Blues

I got my word from the captain  
He lowered me down in my cage  
I got my word from the captain  
He lowered me down in my cage

Blood running thick through the water  
Blood running thick through the sea  
Blood running thick through the water  
Blood running thick through the sea

I can see your teeth in the darkness  
Can you smell the stank in these lungs?  
I can see your teeth in the darkness  
Can you smell the stank in these lungs?

Alone away from the sunlight  
Alone away from the ship  
Alone away from the sunlight  
Alone away from the ship  
Descending my breath getting tighter  
As I drop my skin caving in  
Last man alive on the voyage  
The cage sticks tight in the mud

I got my word from the captain  
He lowered me down in my cage  
I got my word from the captain  
He lowered me down in my cage

Blood running thick through the water  
Blood running thick through the sea  
Alone away from the sunlight  
Alone away from the ship
