

No Fun At All, Celestial Q & A

Life becomes so easy when I look into the stars.
Trust me I'm the only one who knows you, I've done your chart.
I'm not just pretending, it's a scientific fact.
You just need to follow me, you don't have to understand.

I can promise you the time of your life.
Searching the Zodiac for any reply.
I can promise you the time of your life.
Searching the Zodiac the stars never lie.

Asking all the questions that you never even had.
Guiding you to places where you will be forever glad.
So don't hesitate too long, my time is not for free.
Empty all your pockets and we're off on an endless spree.

I can promise you the time of your life.
Searching the Zodiac for any reply.
I can promise you the time of your life.
Searching the Zodiac the stars never lie.

I can show you what's concealed in the sky.
But you have to put your trust in my hands.
I can show you what's concealed in the sky.
But you have to put your trust in my hands.

I can turn your life around. (x4)

I can promise you the time of your life.
Searching the Zodiac for any reply.
I can promise you the time of your life.
Searching the Zodiac the stars never lie. (repeat chorus)
