No Fun At All, Don't Know Nothing

I never let off something, leaving something cause I know It's a waste of my time I never listen to the things you say because I know It's a waste of my time

Cause I don't know nothing and I'm happy as I am Don't know nothing and I never gave a damn, don't know nothing, it's an easy way to live Don't know nothing and I never gonna give anybody anything

I never understand the way my mind is operating Am I wasting your time? You really would be better off if you would pack and leave me I am wasting your time

Cause I don't know nothing and I'm happy as I am Don't know nothing and I never gave a damn, don't know nothing, it's an easy way to live Don't know nothing and I never gonna give anybody anything

Don't know nothing and I'm happy as I am Don't know nothing and I never gave a damn, don't know nothing, it's an easy way to live Don't know nothing and I never gonna give anybody, anybody, anybody anything
